- \*1 - Tableau does not provide host connection cables for OEM products as the customer or integrator will typically select a custom cable with the proper length and connection types.
- \*2 - The T35689iu requires a USB 3.0 cable to the host computer motherboard or controller.
- \*3 - The T3iu is a SATA Imaging Bay and therefore does not require device cables.
- \*4 - The T35is requires a FireWire and an optional eSATA cable to the host computer motherboard or controller
